

# galileo

The Galileo Sonata is truly a 'performance' model digital piano that helps you unlock your musical potential. The elegant design and powerful features meet the exacting standards of European piano crafting tradition. The Sonata starts with an award-winning key action with escapement - a delicate mechanism that simulates the world's most prestigious concert level pianos. The technological process that produces the sound is recognized by experts as the finest in it's field. This exclusive technology - called "iMotion™" - helps you produce all the subtle nuances and timbres of a concert grand piano. Of course, the Sonata not only sounds great, but it also looks great! The distinctive cabinet is designed and hand-crafted in Italy and the powerful Acoustic-Chamber™ Sound system produces professional-quality sound. The Galileo Sonata - a sound investment in a musical future!
